We must have 500 doz. eggs this week and next. Bring them to us and we will give you 13cents per dozen.

Patterson & Symphon.

As a member of the firm of Patterson & Symphon, I will say that I have had ten years experience in the dry goods business, five years of which were spent in the largest wholesale house in this country, and I guarantee our prices to be as low as the lowest. I should be glad to have you call and inspect our goods. J. H. Patterson.

First Class Meats.

We are prepared to serve the people of Lancaster with the very best meat. All our stock is the very best, and when you give us an order you can rest assured that you will receive meats that you will enjoy. Give us a trial order. We guarantee satisfaction. Shop adjoining new hotel, Public Square. J. R. Payne.

We Get Many Of 'Em.

The party who has been sending us anonymous letters had better seek someone else upon whom to work their fiendish practice. We have received so many that no attention is paid them at all. There is a pretty good idea where some, or most of these epistles originate, and a dynamite bomb should be placed where it will do the most good.

Clean 'Em Out.

While your cistern is dry, have it washed out thoroughly and then put a filter over it. You can do no better than get one of Raymond Haselden's filters, which is pronounced to be the best and most perfect filter ever put on the market. This will give you clean, pure water and save ten times its cost in doctor's bill.

Election Returns.

H. C. Hamilton and Geo. Smith have arranged for the Associated Press Bulletins on night of the election, and same will be read in circuit court room. All returns will be received as soon as given out and it will be possible to see the result as soon as it is known anywhere. Good order will be maintained and the room kept comfortable. Admission only 25 cts.

Opera House Rules.

Manager Hughes has posted the following rules for the local Opera House which will be rigidly enforced:

Curtain rises promptly at 8 o'clock. Stamping of feet, whistling, loud talking, unnecessary noise, eating peanuts, loading in the lobby not allowed. No one but employees allowed behind the curtain. If you leave the house between acts, please return to your seat before opening of next act. Ladies will please remove their hats when play commences, thus conferring a favor upon those sitting in their rear. These rules will be enforced.

M. D. Hughes, Mgr.

Unusually Quiet.

We have never experienced as quiet a campaign as has been the present one in Garrard. Many speakers have been here, the boys would yell at the time, but the racket would soon die out, and nothing more be thought of the election 'til another speaker would mount the raging stump. If either party is using money, they are keeping it pretty quiet. As Uncle Sam has a finger in the pie this year, the boys will be pretty careful in flourishing their tongues and guns and declaring as to whether or not men can vote. Uncle Sam is no respecter of persons, and once behind his bars, it will take some work to get out.

See Peck's Bad Boy at the Opera House tonight.

Prices at the Opera House this week are only 10, 20 and 30 cents.

You can't afford not to try our Hot Drinks. Frisbie's Drug Store.

See Billy Myers and Bob Demorest dance at the Opera House every night this week.

If you want Onieta suits for 60c, we have them. Others ask \$1.25 for same goods. Patterson & Symphon.

Why buy a ready-made suit, when you can have one made to your measure for TEN DOLLARS? J. C. Hemphill.

Take Notice.

For some unknown cause some of our brands of flour have been misrepresented, our brands are Minors X X X Patent, "Garrard" Straight, Queen of Household, Low Grade. Try our flour and we will guarantee every sack of it.

J. S. Minor & Son.

Harry Ward's Big Minstrels.

The one big theatrical event of the season will be the forthcoming appearance of Harry Ward's Magnificent Minstrels at Garrard Opera House Wednesday evening, Nov. 7, which is the greatest company ever organized, presenting an excellent program. It is a fact that minstrelsy has become an art, and every member of this company is an artist. The entire company will be seen on the streets in the finest parade ever attempted by a traveling organization the day and date of the performance. Seats on sale at Stornes drug store.

The Williams Comedy Company.

The above is a familiar name to Lancaster people, the troupe having played here a solid week last winter to large and delighted audiences. They opened the season at the local opera house Monday night, and have been giving performances that more than please the crowds. All the favorites of last year are still with the company. Misses Ona, Marie, Fannie and Katie Williams, J. C. T. H. and Alfred Williams, the rip-roaring Tom Cady, happy Billy Myers and the inimitable Bob Demorest are all favorably remembered by Lancaster theater goers, and were given a warm welcome Monday night. C. J. Johnston has been added to the company, and is giving great satisfaction. The children still add great interest to the program, and show the effects of the careful training they have undergone since here last. THE RECORD takes great pleasure in recommending this company to the people, as their entertainments are far above the average, and absolutely free from the objectionable features so frequently seen on the stage of today.

The company will give a matinee Saturday, beginning at 2 o'clock. If you want to see a first-class, clean show, patronize this company.

TO ABSORB THE AIR LINE.

Important Deal by Southern Railway, of Vast Interest to People of This Section.

As has been predicted by THE RECORD, the Southern Railway will get control of the Air Line, and will be a rate-making power out of St. Louis to the South. With the 370 miles of road, from St. Louis to Louisville, and the Louisville division, the Southern will be compelled to build or buy connections with their lines in the South. Since they have failed to perfect a lease of the Cincinnati Southern, the only thing left for them to do is build the Burgin-Jellico extension.

A prominent official of the Southern Railway intimated to the writer, a short time since, that the next work undertaken by the Southern would be the Burgin-Jellico extension. THE RECORD has been confident of this move all along, and the following, taken from the Courier-Journal, bears out our predictions to the letter:

"The Louisville, Evansville and St. Louis Consolidated railroad company, known as the Air Line, will pass under the auctioneering hammer on November 22, at Huntington, Ind. As the Southern railway owns a majority of all the bonds, it is safe to say that it will buy the road in and operate it as a part of the Southern railway system. It is learned from a reliable source that many improvements are contemplated in the passenger and freight service, particularly in the passenger department, and that the road will be placed on a footing with any road entering St. Louis from the West or South."

Geo. C. Smith, president and general manager of the Atlanta and West Point railroad has been decided upon as general manager of the St. Louis Louisville lines of the Southern railway (formerly the Air Line), with headquarters in St. Louis. Mr. Smith is expected to take charge as soon as the road, which is now in the hands of a receiver, passes under the control of the Southern railway. Mr. Smith will also have jurisdiction over the Southern's lines running from Louisville to Lexington and Burgin. The official announcement is expected in a day or two.

If the people of Garrard county ever expect to get another railroad, now is the time to make the move. They can get it by giving the right of way, and if this is not done, or some inducements offered, it will go another route. We know whereof we speak.

The specialties given by Williams Comedy Co., are strictly first-class.

Come and examine our 25c line of underwear. Others ask 50 and 75cts for same goods. Patterson & Symphon.

Having rented the residence of Mrs. Nannie B. Anderson, on Danville st., opposite the Presbyterian church, for the year 1901, I desire to rent some three or four of the rooms, furnished or unfurnished. Call at my office for information. Dr. H. M. Grant.

Plenty of Light in Opera House.

The absence of electric lights cuts no figure at the Opera House. A number of large lamps have been placed so that the house is as well, if not better lighted than heretofore. There's one great help in this, too, you are not annoyed by the going out of these lamps, which has proven such a nuisance heretofore.

Twisting Tiger's Tail.

Jim Pearce and Dee Turner, our efficient policemen, are making the way of the transgressor hard. Quite a number of tiger operators have been fined this week, and several unbearably bad mama's darlings have been forced to face the judge and testify in the cases. Lancaster never had better order than is now being maintained.

Lancaster Boys Kick.

Some of the Lancaster boys who played in the football game at Stanford last week, ask THE RECORD to beseech Eddie Walton to ponder a little over his proclamation of a victory for his town. The Lancaster boys say the ball lacked several feet of reaching the line when the decision was given Stanford, and the score resulted 6 to 5 in their favor.

We will sell 15 lbs. best granulated sugar for \$1., best corn at 9c per can, best tomatoes at 9c per can, and all other groceries at corresponding low prices. Patterson & Symphon Successors to Gaines & Ball.

The Drouth Continues.

Only a few light showers have fallen lately and the drouth is about as serious as at last report. Half a dozen large wagons are run to Dix river continually every day and washerwomen take their work there. The mills and light plant depend altogether upon the water wagons and are being put to considerable expense. Low water in cisterns is causing much sickness. The flood gates will certainly open soon.

The New Ballots and How to Vote.

The device is printed at the top of the ballot but not inclosed in a square as formerly. Immediately under the device is a circle of one inch in diameter, and under this circle is the name of the party, and then follows the names of the candidates. Immediately on the right or rather at the end of the candidate's name is a small square, as was on the old ballot. To vote for all of the candidates of any party, or the straight ticket as it is called, you must stamp IN the CIRCLE. Not to the left or right or above or below but IN it.

Smithie Engleman says it pays to advertise in THE RECORD, when you have anything to sell. He has letters from different parts of the county inquiring about his pony.

Farmers were badly fooled in their corn crops this year, some of them say after they have commenced gathering their corn they find they will not have more than a half crop, a great deal was blown down in this section and it never matured.

Mr. and Mrs. James Dunn, of Lancaster visited the family of Mason Pullins Sunday. Mr. J. T. Palmer and wife have returned from Louisville, after a very pleasant visit to friends and relatives. Mr. R. L. Jennings and wife have returned from a visit to J. C. Thompson and family, in Lancaster. Miss Amanda Anderson was at home from Friday until Monday. Miss Jennie Parker has postponed her visit to Texas until December. One bleeding heart will be left behind too. Quite a crowd from Paint Lick formed a party and went chestnut hunting last Saturday. Mrs. B. M. Lear chaperoned the crowd, and every body reports a good time and plenty of chestnuts and persimmons.

Cotton has advanced from 7 1/2c Jan. 1, 1900, to 10 1/2c Oct. 1.

Bradstreet's wheat visible in America is 79,164,000 bushels; corn, 12,153,000 bushels, against last year 72,493,000 wheat and 20,586,000 corn. This is the real visible, though not stamped official.

Messages from the northwest alleged the cash demand for both wheat and flour was poor and that wheat receipts would be larger if the cars could be procured.

R. D. Bruce says that he has examined considerable of his wheat sown between Sept. 20th and Oct. 1st and finds that more than half has died down almost to the seed. Is it advisable to resow now or wait until there is a heavy rain?—Advocate

The fruit trade in this country is assuming an importance hardly second to the cereals. The strawberry crop is said to be worth \$80,000,000, apples \$200,000,000, oranges and peaches \$20,000,000, and sufficient other small fruits to bring the total up to \$500,000,000.

The Harrodsburg Democrat notes the sales of a number of veal calves at 4 to 5 cents; a crop of hemp at \$4.65; a lot of 1,200 lb. steers at \$4.40; several lots of hogs at 4c; 800 bales of hay at fifty cents per hundred; a lot of 65 lb. lambs at 34c; 70 good stock ewes at \$4.65 each.

The Woodford Sun gives the following prices obtained at a sale there last week: work horses, \$40 to \$52; 5 milk cows, \$44 to \$50; yearling steers, \$30.50 each; 50 sheep, \$5.50 per head; fat hogs, \$3.75 and \$3.80; shoats, \$4 per cwt; corn in field, \$1.60; corn in crib, \$1.65; oats, \$10.85 per ton; baled clover hay, \$6.75 per ton.

At a meeting of the tobacco growers of Harrison county after a canvass it was found that three-fourths of the growers have signed agreements not to raise any tobacco next year on condition all growers will sign the same contract. The leaders of the scheme think they can arrange for no crop in the tobacco section of the state next year, thus greatly enhancing the value of the weed for the year following.

The Owen News says the tobacco warehouses are boycotting the farmers who used Paris green on their tobacco. Some agents have been instructed not to advance any money on tobacco where Paris green has been used. The only effectual way to put a stop to the use of this poison is for the market to condemn it. In this county Paris green has been used several persons, and in some cases death has resulted from its use. We heard of one man who boasted of his having sprinkled 25 pounds of the poison on his tobacco after it had been placed in the barn because of the great quantity of worms that still remained on his tobacco. We think it would be better to reduce the amount of acreage and produce a better quality than to plant such a tremendous crop and rely on poison to protect it from the worms.

In the estimation of the most experienced men of the market, the growers are making a serious mistake in rushing their tobacco to market. The trust is holding off of new tobacco and it is evident only two manufacturers are on the market for this crop at present. Under the circumstances there is no competition on new tobacco, therefore, prices on this crop are not ready for the new crop, and do not care to buy freely of new, when weather conditions at present are not the best, and tobacco is too soft to keep without immediate handling. The liberal offering of new is not alone affecting that crop, but the 1899 crop as well. If the Kentucky growers of tobacco care to act on the side of wisdom, a waiting game will be instituted, and a liberal amount of tobacco will not be seen on the market before the last of November. December would not be too late to send the new to market.—The Weed.

COSTLIEST OF SAUSAGES.

From Lyons, France, and at Retail May Sell for as Much as a Dollar a Pound.

"The costliest of all sausages," said a man familiar with the trade, according to the New York Sun, "is Lyons sausage, imported from France. Lyons sausage sells in Paris at two francs and more a pound. Here it is sold at 80 cents to one dollar a pound. Lyons sausage is also produced in this country. That made here is even finer than the imported, but sells here, however, for somewhat less.

"Lyons is rather a large sausage. It is put up in the largest size hog casings and it is made of beef and pork. The meats used in making it are of the very best, and they are prepared with the greatest care. From the beef all the sinews and veins are removed, and there is left only the selected parts of the meat. The beef is chopped very fine, so fine as to make it practically a paste. The pork used is from the back fat of hogs. This is not chopped fine, as the beef is, but is cut into irregular shaped pieces which show in the sausage when it is cut. The spices used in the seasoning are of course of the choicest. The Lyons sausage is hard-smoked.

"The art of sausage making has so improved in this country that now, as you can say without reservation, the finest sausages produced in the world are made in the United States. This is true without exception. The American Lyons sausage, for example, is better than the imported. Some American Lyons is exported to France and sold there, and some of that thus exported is reimported and sold here as imported Lyons.

"Lyons sausage is served in the very finest of hotels and restaurants, and it may be found on bills of fare, before the soup, served as an appetizer. For that purpose it is very excellent. I fancy that its increasing use in this manner in New York in recent years is due in great measure to calls for it from Russian visitors. The Russians have always been fond of Lyons sausage, as they are also of caviare."

As Alike as Dutch Dolls. Such little innocents Dutch children look, but in reality they are the most mischievous little rascals in the world. They would wait in swarms outside my hotel in Holland, and follow me to my workshop, clamoring for coppers, which they generally managed to get. Some of them would get tipped twice over—they are so much alike in their general "get up" that it is difficult to distinguish them. I once had a little model posing for me all day, and the next she did not turn up, so my friend went around for the reason; and he was surprised to hear from the indignant mother that I had only given her daughter about two pence. I discovered afterward that this was the case—but I had given five shillings to another little girl who had been standing in my light all day.—Phil Neoy, in Magazine of Art.

Children Buried Under Bridges. Indian Engineering, published in Calcutta, says that the kidnapping of children to bury under the foundations of railway bridges, which has often caused trouble in India, has spread to China, and a bridge is now rarely built in that country without the disappearance of several children from the neighborhood.

CUPID'S CAPERS.

ROSZELL-SPILLMAN.
The Lexington Democrat says: The engagement of Minnie Roszell, of this city, and Mr. George R. Spillman, of Danville, is announced, the wedding is to take place on November 14. Miss Roszell is the daughter of Mr. S. S. Roszell, of this city, and is one of the sweetest and most attractive girls in Lexington, where she is very popular. Mr. George R. Spillman is a prominent business man of Danville, a member of the firm of Anderson & Spillman, millers. The wedding will be a quiet one and will take place at Miss Roszell's home on Maxwell street.

She is a noble young woman in every sense of the word, one who will be a great help to the world through her life most pleasant. Mr. Gaines has been engaged in the grocery business in Lancaster for several years and is quite popular among our people. He is an active church member and a model young man. THE RECORD extends congratulations in advance, and wishes them all happiness and joy.

MILKE-ELSENOR RECEPTION.

The reception Mr. and Mrs. H. Miller gave Wednesday evening in honor of Mr. J. A. Elsner and bride was a very brilliant affair. The supper was perfectly elegant and the tables beautiful. You could tell their friends by the number present, amounting to about one hundred and fifty. For a week before the wedding, preparations were being made for the occasion, and it can be safely said that a more extensive celebration was never given in this community. A large platform was erected near the house, and to the strains of an orchestra many of the guests tripped the light fantastic till an early hour. The tables were well arranged, and the waiters had no trouble in serving the guests promptly and satisfactorily. In THE RECORD's mention of the wedding, last issue, we failed to state that Miss Annie Sullivan, a beautiful young lady, was bride's maid and Mr. Joe Miller best man. The happy couple left last week for their home in Charleston, W. Va., taking with them the best wishes of many friends.

A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so had have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by R. E. McRoberts 1m

Wonderful Little Performer.
The appearance of May Blossom, the three-year-old tot in the Williams Comedy Co., has taken the audiences by storm. This little girl sings, dances and, during a contortion turn by older members of the company, burlesques the actors in a manner that keeps the audience in a roar of laughter. The work done by this child is marvelous, indeed, and has attracted attention all over the country.

A Fine Treat.

We have just received a box of cigars, a present from Capt. Wm. H. Collier, of this city, now in the Philippines. They are hand made, delightfully fragrant and make a smoke that is delightfully enjoyable. Capt. Collier is in the 38th regiment, and his present post office is Batangas, Luzon, P. I. He has many warm friends here who trust he will soon return to his old Kentucky home, hale and hearty.

Garrard Wheat Wins.
Frank B. Marksbury, of this city, was awarded third prize on wheat at the Atlanta exposition last week. When it is remembered that every wheat growing state in the nation was represented, this is pretty good for Garrard. Mr. Marksbury says that had he commenced looking for samples earlier in the season, he is satisfied he could have taken first prize, as he has never seen better wheat in Garrard than has been raised this season.

Death of Tom Boyle.

The people of the community were considerably surprised to hear of the death of Tom Boyle Monday morning. He had been at his work during the past week, and while complaining a little, nothing serious was feared. He went home as usual Sunday night and told his mother he wanted to go to bed, as he was not feeling at all well, but believed he would be all right by morning. Some of the family went to the room later and found him in an unconscious state. They called assistance, but nothing could be done to arouse him, and he died during the night. He was the eldest son of Squire R. Boyle, and a boy of unusual industry, and had the confidence of all who knew him. The remains were interred in the Lancaster Cemetery Monday afternoon.

Shooting Bee.

Louis Leavell and Alex Gill (Buggy) both colored, tried to settle the great political questions of the day by an argument in Will Johnson's shoe shop but finding words inadequate, began to pump lead at one another. It is said eight or ten shots were exchanged, only one taking effect, hitting Leavell in the leg. Gill being a republican, while Leavell is for Beckham and Bryan.

We are here to stay, and as our work is our advertisement, of course we cannot afford to do any kind but the very best. Hair cutting, shampooing and shaving done in the latest and best styles. Call on me. Henry Duncan, in New Hotel. 1f

Must Be in at Night.

Judge Riley, of the Lexington Police Court, has ordered the police of that city to arrest and bring before the court all boys found loitering about the streets after nine o'clock at night, adding that the only way to suppress crime is to start the growing generation in the right direction if faithfully carried out, this action of Judge Riley will doubtless do much toward the moral development of Lexington's youth.

BLOOD POISON.

Mercury AND Potash Make Wrecks, Not Cures

In some cases the external signs of Contagious Blood Poison are so slight that the victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scalp, ulcers on tongue, sore throat, eruptions on skin, copper colored spots, and falling hair and eyebrows leave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison.

Doctors still prescribe mercury and potash as the only cure for Blood Poison. These poisonous minerals never yet made a complete and permanent cure of Contagious Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. Mercury and potash make wrecks, not cures, and those who have been dosed with these drugs are never after free from aches and pain.

S. S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.

Mr. H. L. Myers, New York, N. Y., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it was easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large, red spots on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite improved. I was soon entirely well, and my skin as clear as a piece of glass."

Send for our Home Treatment Book, which contains valuable information about this disease, with complete directions for self treatment. Our medical department is in charge of physicians who have made a life-time study of blood diseases. Don't hesitate to write for any information or advice wanted. We make no charge what is in the most sacred confidence. **THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.**
